DISTRICT VISION STATEMENT

The Sweet Springs R-VII School District will develop policies; guidelines and programs which will help students succeed in life. Progress will be achieved through the accomplishment of a district improvement plan in the special areas of need.

DISTRICT MISSION STATEMENT

To provide an educational environment which will encourage students to realize their potential and to serve as a resource for the community in promoting lifelong learning experiences.

ELEMENTARY VISION STATEMENT

To provide a foundation for success in future endeavors for all students

DISTRICT PRE-SCHOOL PHILOSOPHY

A philosophy of education is the foundation on which a school district is built, and upon which the product of the school program is evaluated. The philosophy herein subscribed to by the Board of Education shall be a guide in determining the policies, rules and regulations of the school district.

Recognizing each student as a unique individual, we believe that education should provide an opportunity for the maximum development of each individual within the limitations of his or her capacities. Through education, it is possible for the individual to discover and endeavor to achieve to the limits of his or her capacities.

We believe that in a democratic society, education must help the student realize his or her worth and to impart this confidence to the students. The parents/guardians may do this by cooperating to the fullest with the schools, by encouraging the student to give his or her best efforts to the daily school responsibilities, and by participating in school activities.

We believe that the student must have responsibilities in the educational program of the community. The most important of these is attitude. The student is obliged to come with an open mind, equipped with all the necessary materials, ready to fulfill the responsibilities in the learning process. The basic attitude should be that the school is an institution of opportunity, staffed with trained personnel to help the student become a contributing member of society.

We believe that the foundation of the district's educational program is based on the development of competencies in the basic fundamentals of reading, oral and written communication and mathematics.

PRESCHOOL CURRICULUM

Sweet Springs R-VII Preschool implements Project Construct curriculum, which is based on the constructivist theory of learning. The constructivist theory, states that children actively construct their own knowledge and values as a result of interactions with the physical and social worlds. The Sweet Springs R-VII Preschool teachers follow the Project Construct curriculum: The Early Childhood Framework for Curriculum and Assessment, to create hands on lesson plans in which children learn through interactive experiences. The framework is closely linked to state and national standards and allows the preschool teacher to meet learning objectives and translate their observations of young children into appropriate teaching practices. The Missouri state standards are available in the parent information corner outside of the preschool room.

HOURS

Session One	Monday through Friday	7:45 – 10:45
Session Two	Monday through Friday	12:00 – 3:00
Full Day Session	Monday through Friday	7:45 – 3:00

Parents will be asked their preference of half day sessions and/or full day session. It is understood that the school will attempt to accommodate these requests. The ability to do so is limited since there is a maximum of 20 students per session. There will be a teacher who is certified early childhood, as well as a teacher's aide in each class.

PRESCHOOL ORIENTATION

Parents will come into the preschool classroom on Pre-enrollment night to enroll their child for the next school year sometime in April. At this time the children are welcome to come into the classroom and interact while their parents fill out the necessary paperwork.

Parents receive a welcome packet at the beginning of July or upon enrollment (if enrolling after July 1.) The packet includes an introductory letter, a school supply list, an information survey on their child, and a checklist of any paperwork or fees needed before the beginning of the school year.

Parents will be invited to a parent orientation night in August. Families are invited to an Open House a few days before school begins. At this time, children can explore their new classroom and meet their teachers. Parents sign up for volunteer opportunities, meet the teachers, obtain copies of preschool standards and ask any questions they may have.

Families will be given the opportunity to create a family scrapbook page to keep in the classroom scrapbook to help their child with separation anxiety.

If there are any other needs or requests for a child to become comfortable with the teachers and the classroom environment, parents and teachers will work together to accomplish that goal.

The policy listed above will also be followed for students who enroll in preschool throughout the school year. Families will also be allowed to visit the classroom prior to the first day of attendance. At this time, the student would be able to explore their new classroom and meet their teachers.

SCHOOL CALENDAR

The preschool will follow the same school calendar as all other schools of the Sweet Springs R-7 District.

TRANSPORTATION

Parents are responsible for taking students to and from Pre-School.

HEALTH AND SAFETY

Children who are ill should remain at home so that their illness is not spread to the rest of the class. It is the parent's responsibility to ascertain whether their child's illness is a danger of infecting others and acting accordingly. Before a student can return to school they must be symptom and fever free for a period of 24 hours. If your child has been exposed to an infectious disease but has not begun showing symptoms, please keep your child home to avoid infecting the entire group. If your child has already been to school and gets an infectious disease please notify his/her teacher of the situation.

If you or someone else is going to pick up your child at the close of the school day it is necessary that you are prompt. Repeated failure to pick up your child in a timely manner or failure to make arrangements for your child to reach home may result in them being removed from Sweet Springs R-7 Pre-school.

Shot records must accompany your child's application to attend Pre-School. We can not accept students whose shot records are not current.

INJURY/ ACCIDENT PROCEDURES

The classroom teacher will handle minor scrapes and bumps. All other injuries will be handled by the school nurse. Parents will receive a copy of the injury form. Another copy of the injury form will be sent to the office.

In the case of a student emergency, the situation will be handled as expeditiously as possible. The school will attempt to reach the parent/guardian or designated emergency contact immediately, administration will proceed as they deem necessary. The family physician may be called if available.

In the case of extreme medical emergency, (An extreme medical emergency exists when a student loses consciousness or exhibits other behaviors indicative of grave physical illness at school. In these circumstances, time is limited and parents/guardians cannot be contacted until after emergency personnel have been called.) Teachers will follow these guidelines.

- a. If the nurse or other trained personnel are available, seek their assistance immediately.
- b. Stay calm. Stay with student or students, attempt to keep the student comfortable and safe. Do not otherwise attempt First Aid.
- c. Send for an administrator.
- d. The school nurse, if available, will decide whether or not an ambulance is necessary. If so, call the ambulance (911) and the parent/guardian.
- e. Other faculty or staff persons on the scene should attempt to clear the area of students and maintain calm.

ATTENDANCE

It is clearly in the best interests of students to be at school regularly. A student will be allowed ten absences per semester. The ten days are for such things as: illness, death in the family, and legal matters. Unexcused absences would include shopping, recreational trips, and hair appointments.

If a student misses more than ten days due to illness, written medical records need to be provided. Notices of absences will be sent home periodically.

1. When a child is absent it is the parents' responsibility to contact the school either in person, by phone, or by note to explain the absence. A doctor's note should be provided when a child misses school for a doctor's appointment.
2. If a child misses more than ten days during a semester, attendance records will be looked at more closely. A child missing more than ten days per semester of preschool will be in jeopardy of losing their spot.

When your child is not in attendance at school he/she will not be allowed to attend after school functions in the evening of the same school day. Special circumstances will be at the discretion of the building principal and should be cleared through him/her prior to the time of the after school function.

MEDICATION

It is best if your child's medication is given at home. If this is not possible the school nurse can dispense medicine. If the school nurse is to give your child medicine, you must send the prescription bottle to school with all necessary instructions. Please note we must have the actual prescription bottle to dispense medicine.

IMMUNIZATION LAW

DISCIPLINE

A goal of the pre-school is to better prepare students to enter kindergarten and the elementary grades. One major part of that preparation involves discipline. Discipline is an integral component of the education process and a symbol of the commitment of parents, students, and administrators to the maintenance of an effective learning environment.

A further goal of the Sweet Springs Preschool is to guide young children in making the right choices. Positive reinforcement will be used for suitable behavior. Redirection or temporary separation from an area will be used for inappropriate behavior. The students will set the classroom rules and appropriate discipline for breaking those rules with guidance from the teacher. The Sweet Springs R-7 School District has a code of conduct for students grades K-12. That code will also be administered for the Pre-school; however the fact that the pre-school students are 3 and 4 years old will be taken into consideration before disciplinary decisions are reached. (The Sweet Springs Code of Conduct can be furnished upon request.)

NUISANCES

Any item or article, that may become a nuisance in the pre-school, is subject to confiscation. As a general rule students should not bring playthings to school.

If you would like to do so please put in a request with the preschool teacher. The portfolio contains samples of your child's work, anecdotal records, and checklists.

Those parents with students entering kindergarten the following year will have two scheduled meetings with the preschool teacher to discuss their child's progress. KINDERGARTEN TRANSITION

Children who are age eligible for Kindergarten will be given a screening assessment in the spring. Once the Kindergarten screening is completed, parents will be asked to schedule a conference with the preschool teacher. During this conference, the parents and the teacher will review the child's preschool portfolio and the results of their screening. A decision will be made collectively by all teachers and parents of the child, and in some instances by the principal, on whether the child is developmentally ready to begin their Kindergarten year. Children entering Kindergarten are given the option to attend a five-week long summer school. This will better prepare children for an all day long school experience. Missouri Department of Elementary & Secondary Education No Child Left Behind Act of 2001 (NCLB) COMPLAINT PROCEDURES

This guide explains how to file a complaint about any of the programs that are administered by the Missouri Department of Elementary and Secondary Education (the Department) under the No Child Left Behind Act of 2001 (NCLB). Programs include Title I. A, B, C, D, Title II, Title III.A.2, Title IV.A, Title VI, Title VII.C Revised 1/15 in compliance with NCLB Title IX Part C. Sec. 9304(a)(3)(C)

Local education agencies are required to disseminate, free of charge, this information regarding NCLB complaint procedures to parents of students and appropriate private school officials or representatives.

NCLB COMPLAINT PROCEDURES CONT'D

1. What is a complaint under NCLB? For these purposes, a complaint is an allegation that a local education agency (LEA) or the Missouri Department of Elementary and Secondary Education (the Department) has violated a federal statute or regulation that applies to a program under NCLB.
2. Who may file a complaint? Any individual or organization may file a complaint.
3. How can a complaint be filed? Complaints can be filed with the LEA or with the Department.
4. How will a complaint filed with the LEA be investigated? Complaints filed with the LEA are to be investigated and attempted to be resolved according to locally developed and adopted procedures.
5. What happens if a complaint is not resolved at the local level (LEA)? A complaint not resolved at the local level may be appealed to the Department.
6. How can a complaint be filed with the Department? A complaint filed with the Department must be a written, signed statement that includes:
 1. A statement that a requirement that applies to an NCLB program has been violated by the LEA or the Department , and
 2. The facts on which the statement is based and the specific requirement allegedly violated.
7. How will a complaint filed with the Department be investigated?

The investigation and complaint resolution proceedings will be completed within a time limit of forty calendar days. That time limit can be extended by the agreement of all parties.

The following activities will occur in the investigation:

 1. Record. A written record of the investigation will be kept.
 2. Notification of LEA. The LEA will be notified of the complaint within ten days of the complaint being filed.
 3. Resolution at LEA. The LEA will then initiate its local complaint procedures in an effort to first resolve the complaint at the local level.
 4. Report by LEA. Within thirty days of the complaint being filed, the LEA, will submit a written summary of the LEA investigation and complaint resolution. This report is considered public record and may be made available to parents, teachers, and other members of the general public.
 5. Verification. Within ten days of receiving the written summary of a complaint resolution, the Department will verify the resolution of the complaint through an on-site visit, letter, and/or telephone call(s).
 6. Appeal. The complainant or the LEA may appeal the decision of the Department to the U.S. Department of Education.
8. How are complaints related to equitable services to private school children handled differently?

If the complaint is an LEA is not providing equitable services for private school children, in addition to the procedures listed in number 7 above, the complaint will also be filed with the U.S. Department of Education, and they will receive all information related to the investigation and resolution of the complaint. Also, appeals to the United States Department of Education must be filed no longer than thirty days following the Departments' resolution of the complaint (or its failure to resolve the complaint).
9. How will appeals to the Department be investigated?

The Department will initiate an investigation within ten days, which will be concluded within thirty days from the day of the appeal. An independent on-site investigation may be conducted if the Department determines that it is necessary. The investigation may be continued beyond the thirty day limit at the discretion of the Department. At the conclusion of the investigation, the Department will communicate the decision and reasons for the decision to the complainant and the LEA. Recommendations and details of the decision are to be implemented within fifteen days of the decision being delivered to the LEA.
10. What happens if a complaint is not resolved at the state level (the Department)?

The complainant or the LEA may appeal the decision of the Department to the United States Department of Education.

Parent Information Resource Center

The Parental Information and resource Center (PIRC) program is funded by the US Department of Education, Office of Innovation and Improvement, established to provide training, information, and support to parents and individuals who work with local parents, districts, and schools that receive Title I.A funds. Information is available by accessing <http://www2.ed.gov/programs/pirc/index.html>

Earthquake Safety

For Missouri's Schools

The New Madrid Seismic Zone Extends 120 Miles Southward from the area of Charleston, Missouri, and Cairo, Illinois, through New Madrid and Caruthersville, following Interstate 55 to Blytheville and on down to Marked Tree, Arkansas. The NMSZ consists of a series of large, ancient faults that are buried beneath thick, soft sediments. These faults cross five state lines and cross the Mississippi River in three places and the Ohio River in two places.

The New Madrid Seismic Zone and surrounding region is Active, Averaging More than 200 Measured Events per Year (Magnitude 1.0 or greater), about 20 per month. Tremors large enough to be felt (Magnitude 2.5 – 3.0) are noted every year. The fault releases a shock of 4.0 or more, capable of local minor damage, about every 18 months. Magnitudes of 5.0 or greater occur about once per decade. They can cause significant damage and be felt in several states.

The Highest Earthquake Risk in the United States outside the West Coast is in the New Madrid Seismic Zone. Damaging temblors are not as frequent as in California, but when they do occur, the destruction covers over more than 20 times the area due to the nature of geologic materials in the region. The 1968 5.5 magnitude Dale, Illinois earthquake toppled chimneys and caused damage to unreinforced masonry in the St. Louis area, more than 100 miles from the epicenter. A 5.2 magnitude earthquake in April 2008 in southeast Illinois, did not cause damage in Missouri, but was felt across much of the state.

A Damaging Earthquake in this Area, which experts say is about a 6.0 magnitude event, occurs about once every 80 years (the last one in 1895 was centered near Charleston, Missouri). There is estimated to be a 25-40% chance for a magnitude 6.0 – 7.5 or greater earthquake along the New Madrid Seismic Zone in a 50-year period according to the U.S. Geological Survey reports. The results would be serious damage to un-reinforced masonry buildings and other structures from Memphis to St. Louis. We are certainly overdue for this type of earthquake!

A Major Earthquake in this Area - the Great New Madrid Earthquake of 1811-12 was actually a series of over 2000 shocks in five months, with several quakes believed to be a 7.0 Magnitude or higher. Eighteen of these rang church bells on the Eastern seaboard. The very land itself was destroyed in the Missouri Boot heel, making it unfit even for farming for many years. It was the largest release of seismic energy east of the Rocky Mountains in the history of the U.S. and was several times larger than the San Francisco quake of 1906.

When Will Another Great Earthquake the Size of Those in 1811-12 Happen? Several lines of research suggest that the catastrophic upheavals like those in 1811-12 visit the New Madrid region every 500-600 years. Hence, emergency planners, engineers, and seismologists do not expect a repeat of the intensity of the 1811-12 series for at least 100 years or more. However, even though the chance is remote, experts estimate the chances for a repeat earthquake of similar magnitude to the 1811-1812 New Madrid earthquakes over a 50-year period to be a 7 - 10% probability.

What Can We Do to Protect Ourselves? Education, planning, proper building construction, and preparedness are proven means to minimize earthquake losses, deaths, and injuries.

Prepare a Home Earthquake Plan

Choose a safe place in every room--under a sturdy table or desk or against an inside wall where nothing can fall on you.

Practice DROP, COVER AND HOLD ON at least twice a year. Drop under a sturdy desk or table, hold onto the desk or table with one hand, and protect the back of the head with the other hand. If there's no table or desk nearby, kneel on the floor against an interior wall away from windows, bookcases, or tall furniture that could fall on you and protect the back of your head with one hand and your face with the other arm.

Choose an out-of-town family contact.

Take a first aid class from your local Red Cross chapter. Keep your training current.

Get training in how to use a fire extinguisher from your local fire department.

Inform babysitters and caregivers of your plan.

Eliminate Hazards

Consult a professional to find out additional ways you can protect your home, such as bolting the house to its foundation and other structural mitigation techniques.

Bolt bookcases, china cabinets and other tall furniture to wall studs.

Install strong latches on cupboards.

Strap the water heater to wall studs.

Prepare a Disaster Supplies Kit for Home and Car

First aid kit and essential medications.

Canned food and can opener.

At least three gallons of water per person.

Protective clothing, rainwear, and bedding or sleeping bags.

Battery-powered radio, flashlight, and extra batteries.

Special items for infant, elderly, or disabled family members.

Written instructions for how to turn off gas, electricity, and water if authorities advise you to do so.

(Remember, you'll need a professional to turn natural gas service back on.)

Keeping essentials, such as a flashlight and sturdy shoes, by your bedside.

Know What to Do When the Shaking BEGINS

DROP, COVER AND HOLD ON! Move only a few steps to a nearby safe place. Stay indoors until the shaking stops and you're sure it's safe to exit. Stay away from windows.

In a high-rise building, expect the fire alarms and sprinklers to go off during a quake.

If you are in bed, hold on and stay there, protecting your head with a pillow.

If you are outdoors, find a clear spot away from buildings, trees, and power lines. Drop to the ground.

If you are in a car, slow down and drive to a clear place (as described above). Stay in the car until the shaking stops.

Know What to Do AFTER the Shaking Stops

Check yourself for injuries. Protect yourself from further danger by putting on long pants, a long-sleeved shirt, sturdy shoes, and work gloves.

Check others for injuries. Give first aid for serious injuries.

Look for and extinguish small fires. Eliminate fire hazards. Turn off the gas if you smell gas or think its leaking. (Remember, only a professional should turn it back on.)

Listen to the radio for instructions

Expect aftershocks. Each time you feel one, DROP, COVER, AND HOLD ON!

Inspect your home for damage. Get everyone out if your home is unsafe.

Use the telephone only to report life-threatening emergencies.
