INTRODUCTION

The purpose of this handbook is to outline some basic guidelines and procedures that we will need in the day to day functioning of our school. Our main concern in compiling this material is to provide you with something that will be functional and useful. Use your handbook regularly; it may eliminate a worried moment and aid you in solving a problem. Keep your handbook in a convenient location in order to have it serve you better. This book is a direct extension of Board policies and regulations which details in greater depth those general policies outlined in the Board Policy Handbook for teachers.

Teachers are expected to read and be familiar with the material in this handbook. There are also some things contained here that need to be explained to your students.

ATTENDANCE- RECORDING

Roll is to be taken by each classroom teacher first thing in the morning. The students who are absent or tardy are to be entered into the SIS program.

Any parent picking up a child before the dismissal bell rings must first check them out through the office. The office will call on the intercom clearing students to go to the office.

Either of the above is to be initiated at the office. Parents are not to take a child with the promise that they will tell the office on the way out.

ATTENDANCE POLICY- STUDENT

It is clearly in the best interests of students to be at school regularly. A student will be allowed ten absences per semester.

- The ten days are for such things as: illness, death in the family, and legal matters. Unexcused absences would include shopping, recreational trips, and hair appointments.

If a student misses more than ten days due to illness, written medical records need to be provided. Notices of absences will be sent home periodically.

1. When a child is absent it is the parents' responsibility to contact the school either in person, by phone, or by note to explain the absence. A doctor's note should be provided when a child misses school for a doctor's appointment.
2. If a child misses more than ten days during a semester, attendance records will be looked at more closely. A child missing more than ten days per semester of preschool will be in jeopardy of losing their spot.

BLOOD AND/OR BODY FLUIDS- CLEANING UP

Many infectious agents can be found in the blood and/or body fluids of humans. This includes individuals with no outward signs or symptoms of infection. It is therefore important that everyone adopt routine procedures for handling the clean-up of all blood/body fluids. The procedures to be used are as follows:

1. If available, cover fluids with absorbent floor sweep material to keep the fluids from spreading. When absorbent material is not available contain the spill with paper towels, etc.
2. Wear rubber gloves and clean up spills with disposable towels or tissues.
3. All surfaces which have been in contact with the fluids should be cleaned with a disinfectant. Any EPA approved disinfectant (i.e. Lysol, etc.) can be used. A 1:100 (three tablespoons/gallon) dilution of household bleach can also be used.
4. If the gloves worn to clean up the spill are reusable rubber gloves, they should be washed with soap and running water prior to removal. Disposable gloves should be removed without soiling the hands and should be disposed of in an impervious plastic bag.
5. If the person doing the cleaning has any open skin lesions, precautions should be taken to avoid direct exposure of the lesions to be body fluids.
6. After exposure to blood/body fluids, good HANDWASHING should consist of thorough use of soap and water for at least 10-15 seconds.
7. It is appropriate to keep a clean-up kit on hand for such spills. The clean-up kit should consist of the following items: Absorbent floor sweep material, Disinfectant, Rubber or plastic gloves, Disposable towels or tissues, Plastic bags. All of these materials should be kept together, in a central location.

CAUTION: The diluted bleach disinfectant solution, if used, should not be used for any other purpose than the clean-up described above. Mixing this solution with certain other chemicals can produce a toxic gas. Also any EPA approved disinfectant used should be diluted according to manufacturers' instructions. It is not appropriate or necessary to add more disinfectant than the directions indicate. Doing so will make the disinfectant more toxic and could result in skin damage to those individuals using it.

BUILDING SECURITY

Building security is a serious concern for any school, due to the many ongoing activities. Problems usually fall into two broad categories- doors being left open, unlatched, or unlocked; and students in parts of the building where they should not be. Please follow these guidelines:

1. Any sponsor or coach is directly responsible for the students in his/her program. Students participating in must be in the direct supervision of their school sponsor at all times.
2. Have a schedule for clubs and activities so that students can tell their parents what time to pick them up. This will help to eliminate unnecessary telephone use and lines at the telephone. Please turn a copy of your schedules into the office so that we may answer parent's questions if possible.
3. Sponsors are not to leave the building until all students have left the building.

BUILDING SECURITY CONT'D.

4. Sponsors are responsible for securing doors when they leave, this includes interior doors or exterior exit doors used by their group. Any staff member who leaves the building and does not ensure that the door is locked will be issued a letter of reprimand to be put in their file.
5. All keys must be signed out in the office and are your responsibility. Do not loan your key(s) to students, parents or anyone else not employed by the district.

BULLETINS- TEACHER

Informational bulletins will be issued daily. They contain items that are of immediate interest and concern, suggesting action and procedure regarding definite school matters. If there are items that you question or do not understand, it is your responsibility to check with the Principal for clarification.

CORRESPONDENCE

Please submit a copy of all general/group written correspondence distributed to students and parents from classroom teachers, grade level teams, or special teachers so that it may be placed in your file before distribution.

DISCIPLINE PROCEDURES

Effective classroom management is essential to developing a positive educational climate. The classroom management practices at Sweet Springs Elementary will focus on positive attempts to build respectful relationships with students while emphasizing student responsibility for their own behavior. Most classroom discipline situations will be handled by the teacher. Sending students to the office regularly for disciplinary reasons weakens the student's perception and respect for the teacher as an authority figure. The principal is available to assist in cases of chronic or severe behavior problems

A goal of the pre-school is to better prepare students to enter kindergarten and the elementary grades. One major part of that preparation involves discipline. Discipline is an integral component of the education process and a symbol of the commitment of parents, students, and administrators to the maintenance of an effective learning environment.

A further goal of the Sweet Springs Preschool is to guide young children in making the right choices. Positive reinforcement will be used for suitable behavior. Redirection or temporary separation from an area will be used for inappropriate behavior. The students will set the classroom rules and appropriate discipline for breaking those rules with guidance from the teacher. The Sweet Springs R-7 School District has a code of conduct for students grades K-12. (Furnished Upon Request) That code will also be administered for the pre-school, however the fact that the pre-school students are 3 and 4 years old will be taken into consideration before disciplinary decisions are reached.

Ongoing communication with parents is a key component of an effective discipline plan. When communicating with parents, whether in person or in writing. Remember that the goal is to create a partnership, share information, and gain parental support in resolving problems. A respectful approach is a must.

Teachers have a responsibility to contact the principal regarding any situation in which parents may contact the principal. It is very difficult to be fully supportive without some background information.

STEPS TO PREVENT BEHAVIOR PROBLEMS

The students in the class will set the classroom rules and discipline for those rules guided by the teacher. The teacher will ensure any safety issues are included in the rules, such as no running inside. All rules will be introduced with reasons why they are needed. For example, we don't run in the classroom because we could slip and fall or run into someone. Creating the rules with the children will give ownership of the rules to the children so they feel that they are vital in helping the classroom community. Rules will be posted in the classroom for the children to see. In addition to setting the rules a schedule will be maintained to provide consistency in daily activities. The teacher will remain in close proximity of the students to help avoid problem behavior.

GUIDANCE POLICY

Staff will use consistent discipline based on the understanding of individual needs and the behavior of the students. Simple understandable rules will be established so that expectations and limitations are clearly defined. Discipline will be constructive including redirection, temporary separation from an area or praise and positive reinforcement.

A student may not be punished by

- Spanking, pinching, shaking, or other corporal punishment
- Isolation for long periods

GUIDANCE POLICY CONT'D.

- Confinement in closets, boxes or similar places
- Humiliation or verbal abuse
- Deprivation of snacks, outdoor play or other program components. Short-term restrictions on outdoor play and on the use of specific activities are permissible.

The students are expected to be considerate of others and to maintain materials properly. Each student is treated with warmth and respect and helped to express their feelings appropriately.

Parents will be notified of persistent behavior problems and a meeting will be scheduled if necessary.

DISCIPLINE TECHNIQUES USED BY STAFF

If a child is in disagreement with another child the teacher will assist as needed by helping the students talk through the problem. For example, if they are fighting over whom gets to play with a doll. Help to provide the words for the students to make a compromise so that the next time they can solve the problem themselves by taking turns. Help explain how each student feels about the situation.

Complement the children on what they are doing correctly. Such as "I really like the way you are standing in line with your hands and feet to yourself", "I like the way you are sitting quietly on your bottom on the carpet." Another example, "You have spent a lot of time working on your painting, tell me about it." If a child is using equipment inappropriately, explain to the child how the equipment is to be used and why. Use this same procedure in the classroom. If they are talking during story time, ask the student to please listen because the other children can't hear when they are talking. If the situation persists, ask them to leave the area.

DRESS CODE

Staff members are expected to dress in a manner that is appropriate for daily classroom activities yet professional. Capris (mid-calf length) are appropriate. Dressy sandals are acceptable. Jeans are acceptable only on designated days. Sweats, shorts, and tennis shoes are appropriate for physical education teachers only. On designated days, shorts are acceptable and should be at the length of his/her fingertips when arms are extended.

Active Shooter

An active shooter is an event in which one or more persons are actively engaging in killing or attempting to kill people in a populated area. In most cases, active shooters use firearms, and there is no apparent pattern or method to their selection of victims. These situations are dynamic and evolve rapidly, with immediate assistance of law enforcement officers to stop the shooting and prevent harm to innocent victims.

Active Shooter Procedures:

If faced with an active shooter incident, there are THREE things you can do that make a difference. RUN, HIDE, FIGHT.

ACTIVE SHOOTER EMERGENCY PROCEDURES

RUN – When an active shooter is in your vicinity.

- If there is a way out, and you can get out, GET OUT! This is your first and best option.
- Get out whether others agree to or not.
- Leave your belongings behind.
- Help others from entering the danger zone.

HIDE – If evacuation is not possible, find a place to hide.

- Lock and/or barricade the door.
- Silence your cell phone.
- Hide behind large objects if possible.
- Remain very quiet and do not leave until directed by law enforcement officers.
- Your hiding place should
 - Be out of the shooter's view.
 - Provide protection if shots are fired in your direction.
 - Do not trap or restrict your options for movement.

FIGHT – AS A LAST RESORT, and only if your life is in danger.

- Attempt to incapacitate the shooter.
- Act with physical aggression.
- Improvise weapons.
- Commit to your actions.

POLICE RESPONSE – When law enforcement officers arrive.

- Keep your EMPTY hands raised and visible, with your fingers spread apart.
- Remain calm and follow instructions.
- Avoid pointing or yelling.
- The first police officers to arrive will not respond to or aid those who are injured. They will go directly to the shooter.
- Know that help for the injured is on the way. Rescue team officers and emergency personnel will care for the injured as soon as possible.
- The area is a crime scene. Police officers may secure all witnesses until identified and questioned.

BOMB THREAT

When threat is received via telephone all calls will be directed to an administrator if possible.

- Personnel will immediately note time of call.
- While personnel is on telephone with caller other school personnel will be directed to contact 911.

 - location of bomb
 - time of detonation
 - Description of device
 - Clues to identify the caller-age, sex and mental condition
 - Group or person responsible
- When and how bomb was placed in school.
- Administrator will signal alarm to clear the building by sounding the fire alarm.
- Students will evacuate the building according to fire drill procedures.
- Any elementary classroom teacher without a class will locate their class according to the evacuation plan.
- Any high school teacher or elementary specials teacher without a class should report to the flag pole to receive further instructions.

ILLNESS PROCEDURES - STUDENT

Children who are ill should remain at home so that their illness is not spread to the rest of the class. It is the parent's responsibility to ascertain whether their child's illness is a danger of infecting others and acting accordingly. Before a student can return to school they must be symptom and fever free for a period of 24 hours. If your child has been exposed to an infectious disease but has not begun showing symptoms, please keep your child home to avoid infecting the entire group. If your child has already been to school and gets an infectious disease please notify his/her teacher of the situation. If your child becomes ill while at school they will be directed to the nurse's office so that she may treat/diagnose the child's condition. If deemed necessary the nurse will contact the parent so that the child may be picked up from school.

INJURY/ACCIDENT PROCEDURES – STAFF

In the event that a staff member is injured while teaching the staff member should report such an injury as soon as possible to the elementary principal. The situation would be handled as expeditiously as possible. If needed the school would attempt to reach emergency contacts listed by telephone. In circumstances where time is limited, listed contacts may not be contacted until after emergency personnel have been called.

The administration will proceed as they deem necessary and will attempt to reach the parent/guardian or designated contact by telephone.

Lesson plans should contain (as a minimum standard) the objectives or purpose of the lesson, activities to teach the objective, assignments, and time schedules for lesson periods and activities. While on the playground, teachers should locate themselves in such a way that they can keep track of all students. Students should not leave the fenced area of the playground parameter, and should not re-enter the school building without teacher permission. Teachers should be observant for any activity that is potentially dangerous and stop it immediately. Teachers should enforce all existing playground rules and make suggestions for the improvement of playground rules to the Principal. If medical or disciplinary assistance is needed on the playground, send two or three dependable students for help or another teacher if one is available. Never leave students on the playground unsupervised.

PURCHASING OF MATERIALS AND RECEIPTS OF FUNDS

A budget has been established and approved for the school. In order that our records be more adequate, it is absolutely necessary that the following prescribed method of handling the purchasing of materials and receipt of funds be strictly followed. Purchasing Procedures: In the interest of accountability and working neatly and conformably with the auditors, all purchasing of goods or services will be done with a Sweet Springs R-7 Purchase Order. No goods or services will be purchased without the use of a purchase order signed by the superintendent. No club, organization, or member of the staff is to purchase any good or service in the name of the school or any of its clubs or organizations without first securing a signed purchase order that has been approved by the appropriate principal and the superintendent. No "on approval" ordering is to be done without following the same procedure as above. "On approval" orders that are not kept are returned through the office staff so that the purchase order may be voided.

Staff members who purchase without first securing a signed purchase order will be liable for either the paying of the bill on the material or service or returning of materials to the vendor.

These requirements are not intended to be interpreted in a way that means you will not be able to purchase materials. It simply means that we must have written record of all purchases and they must be approved by the appropriate official, the superintendent, prior to the purchase being made. Needed materials and services will be provided but in an accountable efficient and consistent manner.

ROOM ACTIVITIES

Room activities which involve the use of outside speakers, class trips, or any other activity which might involve parental or administrative approval should not be undertaken without consultation with the principal.

CHECKING IN AND CHECKING OUT

Morning Procedures: Students will be brought to the classroom by their parent/guardian and will sign in their child. Students should not arrive at the classroom before 7:30 a.m. When dismissing at 10:45 parents will park by the preschool entrance. The preschool teachers will meet parents at the gate, where parents will sign their child out for school release.

Afternoon Procedures: Students will be brought to the classroom by their parent/guardian and will sign in their child. Students should not arrive at the classroom before 11:45 a.m. When dismissing at 3:00 students will be brought to the elementary entrance. The preschool teachers will meet parents as they arrive, so that they can sign their child out for school release.

CLASSROOM

The classroom teacher will be certain that his/her students are supervised at all times. If an emergency exists where the teacher must leave the class, the teachers should have another teacher supervise the students. Never leave the students without adequate supervision.

LUNCHROOM

In accordance with the EAT Smart Program standards, Preschool staff are required to sit with students and assist in facilitating a family meal-like setting during lunchtime. Teachers are expected to oversee the behavior of their students and handle any discipline problems that arise as they would in their own classrooms.

TEACHER EVALUATIONS

Effective teacher evaluation and supervision is an essential part of the total instructional program. The performance-based evaluation procedures in place will be a continuous process which relates directly to on-the-job performance. Evaluation would be a cooperative effort among the Board of Education, administration, and teaching staff aimed at the accomplishment of a primary objective; that being the facilitation and improvement of classroom instruction. Improving students' learning requires the improvement of the effective practice of those teaching in classrooms and providing leadership in schools. As such, Missouri's new Educator Evaluation System focuses on the formative development of teachers and leaders.

DESE EVALUATION MODEL

TEACHER ORIENTATION

New staff members will attend an orientation meeting before school begins. Orientation will consist of information regarding benefits, duties, professional development opportunities, safety, FERPA and any other topics administrators deem necessary to fulfill your job requirements. Classroom teachers will also be assigned a mentor.

TELEPHONE USE PROCEDURES

In case of an emergency involving pupils or teachers, students/staff will be sent for immediately. In non-emergency cases, messages will be taken and delivered at break or recess time.

Pupils are discouraged from using the phone to call parents to bring forgotten items. Pupils may use the phone for emergencies with permission. Teachers may use the phone when there is a need to do so. You are responsible for paying for all personal calls.

PARENT HANDBOOK

All preschool staff members must read the preschool parent handbook. A copy of the handbook can be obtained in the office. When you have read this handbook, please sign and date the office copy.

CHILD ABUSE POLICY

The Board of Education requires its staff members to comply with the state child abuse and neglect laws and the mandatory reporting of suspected neglect and/or abuse. Any school official or employee who knows or has reasonable cause to suspect that a child has been subjected to abuse or neglect, or who observes the child being subjected to conditions or circumstances that would reasonably result in abuse or neglect, will immediately report or cause a report to be made to the school principal, or designee, who will then become responsible for assuring a report is made via the Child Abuse Hotline to the Missouri Children's Division, as required by law.

In the event that a staff member is accused of abuse such allegations should be reported to the building principal immediately. The building principal would report the allegation to the superintendent and further investigate the situation. All parties involved will be asked to submit a detailed written explanation of the events leading up to the accused allegation.

EMPLOYEE RIGHTS AND RESPONSIBILITIES UNDER THE FAMILY AND MEDICAL LEAVE ACT

Basic Leave Entitlement

FMLA requires covered employers to provide up to 12 weeks of unpaid, job-protected leave to eligible employees for the following reasons:

- for incapacity due to pregnancy, prenatal medical care or child birth;
- to care for the employee's child after birth, or placement for adoption or foster care;
- to care for the employee's spouse, son, daughter or parent, who has a serious health condition; or
- for a serious health condition that makes the employee unable to perform the employee's job.

Military Family Leave Entitlements

Eligible employees whose spouse, son, daughter or parent is on covered active duty or call to covered active duty status may use their 12-week leave entitlement to address certain qualifying exigencies. Qualifying exigencies may include attending certain military events, arranging for alternative childcare, addressing certain financial and legal arrangements, attending certain counseling sessions, and attending post-deployment reintroduction briefings.

FMLA also includes a special leave entitlement that permits eligible employees to take up to 26 weeks of leave to care for a covered servicemember during a single 12-month period. A covered servicemember is: (1) a current member of the Armed Forces, including a member of the National Guard or Reserves, who is undergoing medical treatment, recuperation or therapy, is otherwise in outpatient status, or is otherwise on the temporary disability retired list, for a serious injury or illness*; or (2) a veteran who was discharged or released under conditions other than dishonorable at any time during the five-year period prior to the first date the eligible employee takes FMLA leave to care for the covered veteran, and who is undergoing medical treatment, recuperation, or therapy for a serious injury or illness.*

The FMLA definitions of "serious injury or illness" for current servicemembers and veterans are distinct from the FMLA definition of "serious health condition".

Benefits and Protections

During FMLA leave, the employer must maintain the employee's health coverage under any "group health plan" on the same terms as if the employee had continued to work. Upon return from FMLA leave, most employees must be restored to their original or equivalent positions with equivalent pay, benefits, and other employment terms.

Use of FMLA leave cannot result in the loss of any employment benefit that accrued prior to the start of an employee's leave.

Eligibility Requirements

Employees are eligible if they have worked for a covered employer for at least 12 months, have 1,250 hours of service in the previous 12 months*, and if at least 50 employees are employed by the employer within 75 miles.

*Special hours of service eligibility requirements apply to airline flight crew employees.

Definition of Serious Health Condition

A serious health condition is an illness, injury, impairment, or physical or mental condition that involves either an overnight stay in a medical care facility, or continuing treatment by a health care provider for a condition that either prevents the employee from performing the functions of the employee's job, or prevents the qualified family member from participating in school or other daily activities.

Subject to certain conditions, the continuing treatment requirement may be met by a period of incapacity of more than 3 consecutive calendar days combined with at least two visits to a health care provider or one visit and

a regimen of continuing treatment, or incapacity due to pregnancy, or incapacity due to a chronic condition. Other conditions may meet the definition of continuing treatment.

Use of Leave

An employee does not need to use this leave entitlement in one block. Leave can be taken intermittently or on a reduced leave schedule when medically necessary. Employees must make reasonable efforts to schedule leave for planned medical treatment so as not to unduly disrupt the employer's operations. Leave due to qualifying exigencies may also be taken on an intermittent basis.

Substitution of Paid Leave for Unpaid Leave

Employees may choose or employers may require use of accrued paid leave while taking FMLA leave. In order to use paid leave in lieu of FMLA leave, employees must comply with the employer's normal paid leave policies.

Employee Responsibilities

Employees must provide 30 days advance notice of the need to take FMLA leave when the need is foreseeable. When 30 days notice is not possible, the employee must provide notice as soon as practicable and generally must comply with an employer's normal call-in procedures.

Employees must provide sufficient information for the employer to determine if the leave may qualify for FMLA protection and the anticipated timing and duration of the leave. Sufficient information may include that the employee is unable to perform job functions, the family member is unable to perform daily activities, the need for hospitalization or continuing treatment by a health care provider, or circumstances supporting the need for military family leave. Employees also must inform the employer if the requested leave is for a reason for which FMLA leave was previously taken or certified. Employees also may be required to provide a certification and periodic recertification supporting the need for leave.

Employer Responsibilities

Covered employers must inform employees requesting leave whether they are eligible under FMLA. If they are, the notice must specify any additional information required as well as the employees' rights and responsibilities. If they are not eligible, the employer must provide a reason for the ineligibility.

Covered employers must inform employees if leave will be designated as FMLA-protected and the amount of leave counted against the employee's leave entitlement. If the employer determines that the leave is not FMLA-protected, the employer must notify the employee.

Unlawful Acts by Employers

FMLA makes it unlawful for any employer to:

- interfere with, restrain, or deny the exercise of any right provided under FMLA; and
- discharge or discriminate against any person for opposing any practice made unlawful by FMLA or for involvement in any proceeding under or relating to FMLA.

Enforcement

An employee may file a complaint with the U.S. Department of Labor or may bring a private lawsuit against an employer.

FMLA does not affect any Federal or State law prohibiting discrimination, or supersede any State or local law or collective bargaining agreement which provides greater family or medical leave rights.

FMLA section 109 (29 U.S.C. § 2619) requires FMLA covered employers to post the text of this notice. Regulation 29 C.F.R. § 825.300(a) may require additional disclosures.
